

DIVISION DRAW

TAURANGA, NEW ZEALAND · 22 DIVISIONS · 908 GAMES

DIVISIONS 22	TEAM SLOTS 317	NAMED TEAMS 317	GAMES 908	VENUES 9
------------------------	--------------------------	---------------------------	---------------------	--------------------

Every division, every team, every game that team plays. Find your division, find your team, and the table beside the name is your draw: day, time, court, venue, opponent. Each division also carries its whole schedule, game by game, at the end of its section. Times and courts come straight from the settled draw.

WHY SOME TEAMS SHOW THREE OR FOUR GAMES

A knockout game cannot name its teams until the pools finish, so only pool games carry team names — 787 of the 908 games in the draw. That means a team's printed fixture list is its POOL games only.

92 of the 317 teams therefore show fewer than five fixtures (32 show three, 60 show four). Every one of them plays at least five: the rest of their draw is a knockout or plate game, and it is on the page under "What comes next" for their division. Each of those teams carries a line saying so.

Only pool games carry team names — a knockout game cannot name its teams until the pools finish. Every team in this division therefore shows fewer than five fixtures below. Pool play first, then the lines show where each pool placing goes. The pool cards above are the full pool lists — every team in this division, in draw order. Dashed lines are plate and placing games: they are real games, but they are not on the road to the title.

READ THIS FIRST

Only pool games carry team names — a knockout game cannot name its teams until the pools finish. 10 of the 22 teams in this division therefore show fewer than five fixtures below. That is not the whole draw: the rest of their games are knockout or plate games on Sunday or Monday, listed under “What comes next”.

Only pool games carry team names — a knockout game cannot name its teams until the pools finish. Every team in this division therefore shows fewer than five fixtures below. That is not the whole draw: the rest of their games are knockout or plate games on Saturday, Sunday or Monday, listed under “What comes next”.

Only pool games carry team names — a knockout game cannot name its teams until the pools finish. Every team in this division therefore shows fewer than five fixtures below. That is not the whole draw: the rest of their games are knockout or plate games on Saturday, Sunday or Monday, listed under “What comes next”.

Only pool games carry team names — a knockout game cannot name its teams until the pools finish. Every team in this division therefore shows fewer than five fixtures below. That is not the whole draw: the rest of their games are knockout or plate games on Saturday, Sunday or Monday, listed under “What comes next”.

**PLACING & CONSOLATION GAMES** PLAYED ALONGSIDE THE CHAMPIONSHIP BRACKET. NO BEARING ON THE TITLE.**PLACING** 5th · Pool A v 5th · Pool B

Pool play first, then the lines show where each pool placing goes. The pool cards above are the full pool lists — every team in this division, in draw order. Dashed lines are plate and placing games: they are real games, but they are not on the road to the title.

READ THIS FIRST

Only pool games carry team names — a knockout game cannot name its teams until the pools finish. Every team in this division therefore shows fewer than five fixtures below. That is not the whole draw: the rest of their games are knockout or plate games on Sunday or Monday, listed under "What comes next".
